

In the specification:

*Please replace the fifth enumerated paragraph on page 15 with the following:*

7. Calculate the absorptance spectrum A, where the light absorption as derived from these diffuse reflectance measurements is given by:

$$\underline{A = \text{LOG}_{10}(R-D/S-D)} \quad A = \text{LOG}_{10}(R-D)/(S-D) \text{ (step 207).}$$
